UNITE

University Network for Interdisciplinary Teamwork and Engagement — Rules and Scoring Guide

1. Group Rules

- A collaboration group has **at most six students**.
- **No two members may come from the same academic programme.** The rule is programme-based, not department-based: BE CSE and ME CSE are different programmes and may share a group.
- The group creator is a member and is checked under the same rules.
- Friendships have no programme restriction — students of the same programme can be friends.
- For events needing more than six participants, two or more existing groups may form one **event team**. Each group keeps its own six-member, one-per-programme limit; groups are never merged.
- Meetups are decided through **group polls**; one vote per student per poll.

2. Event Category (decided by the host institution)

Host institution	Category	Multiplier
PSG College of Technology or another PSG institution	College	1.0
Any other college (inside or outside Tamil Nadu)	State	1.5
Institute of National Importance (INI)	National	2.0

3. Points Table

Result	College (×1.0)	State (×1.5)	National (×2.0)
1st	100	150	200
2nd	70	105	140
3rd	50	75	100
4th	45	67.5	90
5th	40	60	80
6th	35	52.5	70
7th	30	45	60
8th	25	37.5	50
9th	20	30	40
10th	15	22.5	30
Participation	10	15	20

4. Verification

- Students submit the result with supporting evidence (certificate or proof). The claim stays **pending**.
- An authorised faculty member / administrator approves or rejects it.
- **Only approved claims earn points**; points appear on the **group leaderboard**.

Team No. 8 — Bala Subramanian B (26MX310), Nareshwaran J (26MX331), Venkatesh C R (26MX354). Guide: Dr. V. Umarani. 26MX17 Web Application Development, MCA, PSG College of Technology, 2026–2027.

Policies still being finalised: points sharing when several groups form one event team, joint/non-college hosts, results below 10th and rounding.
